

CHANDRESH SHANIYAR MOGER

Backend Developer (Django — DRF)

☎ +91-6363708550 ✉ chandumoger819@gmail.com [linkedin.com/in/chandreshmoger](https://www.linkedin.com/in/chandreshmoger) github.com/Chandresh-spec

Summary

Backend Developer with hands-on experience in building scalable Django applications using Django REST Framework (DRF), designing robust database models, and developing secure REST APIs. Strong background in Data Structures and Algorithms with **250+ LeetCode** and **50+ GeeksforGeeks** problems solved. Experienced in end-to-end project development including JWT-based authentication systems, admin dashboards, performance optimization, and responsive UI integration. Adept at writing clean, modular, and maintainable backend code.

Skills

Programming & Querying: Python, SQL

Backend Frameworks: Django, Django REST Framework

Problem Solving CS Fundamentals: : Data Structures & Algorithms, LeetCode, GeeksforGeeks, OOP

Databases: PostgreSQL, SQLite

Tools: Git, GitHub, Postman

Web Technologies: HTML, CSS

Projects

CourseCraft — Student Course Enrollment System

- Developed a backend-driven course enrollment platform using Django and Django REST Framework (DRF).
- Implemented secure JWT-based authentication for user login and protected API access.
- Designed REST APIs for course listing, course details, enrollment, and user-specific purchased courses.
- Prevented duplicate enrollments and enforced access control to restrict unauthorized course access.
- Implemented a modular backend architecture with clear separation of models, serializers, and views.
- **Tech:** Python, Django, DRF, JWT, PostgreSQL
- **GitHub:** github.com/Chandresh-spec/CourseCraft

FIND PG — PG Listing & Search Platform

- Designed and implemented a full-stack web application for browsing PG accommodations with advanced search and filtering.
- Built backend models for PG listings, PG images, and rules, ensuring a scalable and normalized database structure.
- Developed an owner dashboard for PG registration, room management, and image uploads using Django Admin customizations.
- Integrated a mobile-friendly responsive UI with dynamic listing pages and optimized descriptions.
- Improved user experience through efficient query handling and well-structured backend logic.
- **Tech:** Python, Django, SQLite, HTML, CSS
- **GitHub:** github.com/Chandresh-spec/FIND-PG

Certifications

- **NPTEL Cloud Computing Certification** — Cloud architecture, virtualization, and distributed systems.
- **Udemy Data Structures & Algorithms Certification** — Problem solving using Python.

Education

Bachelor of Computer Applications (BCA) Final Semester Canara College, Mangalore CGPA: 8.15 Pre-University (12th Grade) TNE PU College Percentage: 89.56%
